

TECHNICAL DATA SHEET

Healthy Hooves Hoof Care Plus Spray HH 104

Revision Date: 18/02/2020

Product Description

Healthy Hooves® Hoof Care Plus Spray HH 104 contains mineral chelate, alongside the unique patented chelant that produces a predictably higher sustainable concentration of hydrogen ions. These sustainable ions bond (chelate) the minerals to keep them in solution, preventing precipitation.

In field trials on farms, Healthy Hooves® Hoof Care Plus HH 104, has shown to be a consistent and effective method in maintaining hoof condition within the adopted farm hoof care protocols. Healthy Hooves® Hoof Care Plus HH 104 was developed for use as a daily direct application to the hooves, where it is impractical to make up solutions prior to use

Benefits

1. Sustains active mineral chelate ion levels.
2. Safe to use for both the operator and the environment.
3. Ideal for applying to individual hoofs.
4. Convenient trigger bottle for ease of use.
5. Contains Tea Tree Oil

Properties

Form:	Liquid
Specific Gravity:	1.010-1.035
Colour:	Green Blue
Odour:	Faint
Solubility:	Complete in water
pH (Neat):	<3.0
pH 1% in solution H ₂ O	N/A

Method of Use

The hoof should be cleaned prior to the Healthy Hooves® Hoof Care Plus Spray HH 104 being applied, then the spray should be directed on to the specified area of the hoof.

Process of Use

Healthy Hooves® Hoof Care Plus Spray HH 104 should be used as follows for the best results:
Continue applying on a daily basis until signs of improvement.
Can be used in conjunction with the Healthy Hooves® Hoof Care Plus Paste and Hoof Slipper.

Packaging

500ml spray bottles.
